

Hello

## Healthy Living

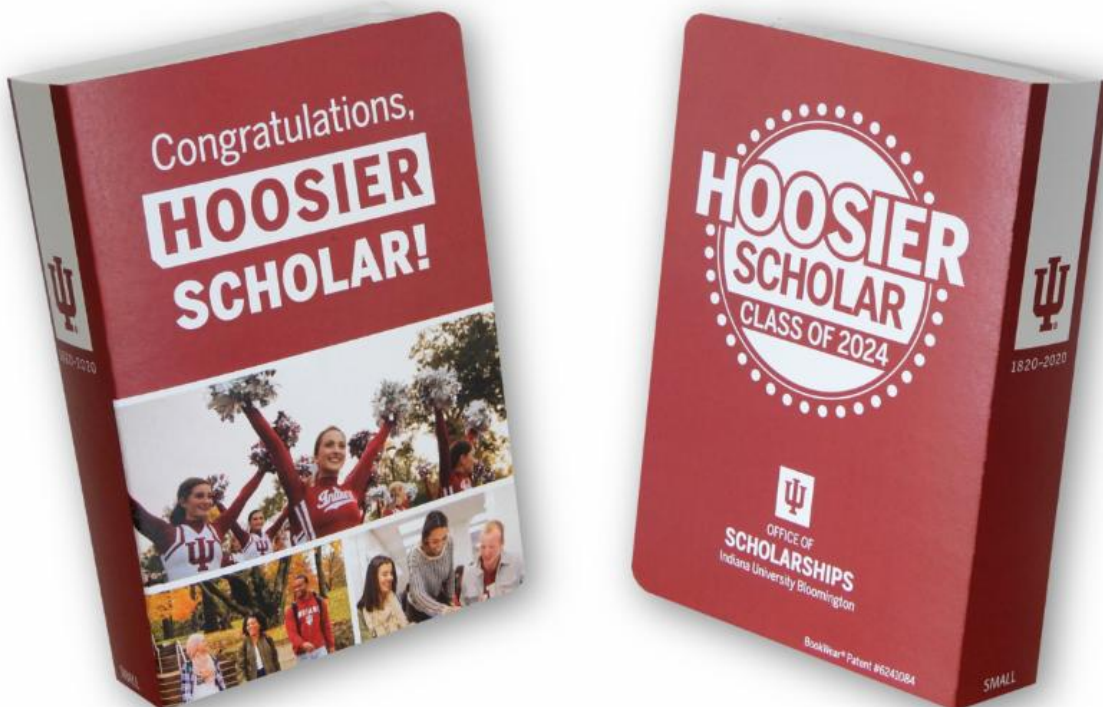

Dignity Health did a little book with a title on the front of "World Class Procedures. Amazing Environment." On the back was the statement "Our priority is you. **Hello Humankindness**". On a card inside they describe their facility, services and commitment and passion for healthcare. This is a marketing package with surprise sunglasses inside. They talk of how sunny and restorative it is in Arizona where Dignity is located. It's a short story that will last a long time in the recipient's memory.

**Get a Prototype "book" for your campus.**

Give a scholarship and announce it with flair; a book with a T-shirt inside! That adds to the pride! "Congratulations, Hoosier Scholar!"

---

### **Surprise them and keep them happy!**

Like handing out a diploma at the end of school, CUNY gives these "books" to students when they arrive, recognizing a major step in their lives. It had a CUNY shirt inside. This does double duty, as a gift and an advertisement.
